

Francesco Fava

Frontend Software Developer

About me

Frontend Developer with 4+ years of experience building enterprise-scale web applications.
Currently working on HP PrintOS, developing complex React and TypeScript solutions within a shared micro-frontend ecosystem. Strong focus on design systems, long-lived codebases, and cross-application platform work.

Work Experience

- Senior Frontend Developer
  Between Technology, HP | 2025 - Current
  - Develop and maintain complex React + TypeScript applications in a large enterprise platform.
  - Build reusable UI components and hooks integrated with shared design systems.
  - Work on advanced state management, async flows, and streaming data.
  - Debug cross-application issues involving authentication, preferences, and notifications.
  - Collaborate with frontend, backend, and platform teams in Agile environments.
- Frontend Developer
  Releevant | 2022 - 2025
  - Built React-based applications for enterprise clients, including HP PrintOS.
  - Migrated legacy Vue and AngularJS codebases to React and TypeScript.
  - Integrated frontend applications with REST APIs and backend services.
  - Improved maintainability through refactoring, testing, and code reviews.

Education

- Bachelor of Economy and Accountability
  Enrico Fermi (Italy) 2014
- Full Stack Web Developer Bootcamp
  Releevant (Málaga) 2021
